DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Concerning claim 1, "two of said pixels" in line 5 should be defined as --two of said four pixels in each block--; "said ordinates" in line 12 should be --ordinates of said input space—or --said each ordinate of said input space--; "said mapped pixels" should be clarified to be whether the mapped pixels of said dominant color and/or the mapped pixels of said non-dominant color.

Concerning claim 5, "said mapping step" should be clarified to be the mapping step of the dominant color or the mapping step of the non-dominant color.

Concerning claim 6, "two of said pixels" in line 4 should be defined as --two of said four pixels in each block--; "said kernel coefficients" in line 10 should be --said kernel coefficient of each color—or --kernel coefficients of said three different colors--; mapped pixels values should be defined or described on how to get them.

Concerning claim 8, "mapping each of the colors" should be --mapping each of the colors of the input space--.

Concerning claim 11 and 14, "an address" should be --addresses--.

3. Claim 1 recites the limitation "said input space pixels" in line 15. There is insufficient antecedent basis for this limitation in the claim.

4. Claim 6 recites the limitation "said input space pixels values " in 6. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 8 recites the limitation "the desired relative rotational orientation of the image" in lines 10-11. There is insufficient antecedent basis for this limitation in the claim.

6. Claim 12 recites the limitation "the desired relative rotational orientation of the image" in line 2. There is insufficient antecedent basis for this limitation in the claim.
